EXPERIENCE

Junior interior designer at LE JARDIN Company **2025 - Present**

Sidi Kerir Petrochemicals company (SIDPEC) Intern **2023 - 2024**

During my internship, I developed interior design proposals using industry-standard software such as AutoCAD, SketchUp Pro, and Adobe Creative Suite to produce technical drawings, 3D models, and presentation boards. I conducted on-site surveys to document existing conditions and gather accurate measurements for space planning. My work incorporated relevant building codes, safety regulations, and accessibility standards to ensure design compliance. I also participated in coordination meetings with architects, engineers, and contractors to align design intent with technical and construction requirements.

PROJECTS

- 3d design for "Alamain Tech Hub" AI & technology research center
- 3d design for Office space design for a local brand "Second Chance" fashion women's summer wear
- 3d design for Honda motorcycle store in a mall
- 3d design for pavilion in Antoniadis garden
- Commercial shop in a mall "Bridal Store" in modern contemporary style.
- Loft House in modern contemporary style.
